## SCIENTIFIC PROGRAMME

### SPECIAL GUEST

**ISAM ALOBID**  
 Hospital Clinic de Barcelona  
 Universitat de Barcelona

**DAY 1**

07:15 - Surgical cases presentation  
 07:30 - Surgical anatomy of the sinonasal district  
 08:30 - Live surgery & debate  
 12:00 - Imaging: Radiological anatomy of the paranasal sinuses  
 12:30 - LUNCH  
 13:00 - Video-guided step-by-step dissection  
 - Identification of main surgical landmarks  
 - Anterior sinus compartment: uncinectomy, middle antrotomy, anterior ethmoidectomy, frontal sinusotomy  
 17:00 - Closing remarks

**DAY 2**

07:15 - Surgical cases presentation  
 07:30 - The combined treatment of rhinosinusitis  
 08:30 - Live surgery & debate  
 12:00 - Imaging: inflammatory diseases and mucocoeles  
 12:30 - LUNCH  
 13:00 - Video-guided step-by-step dissection  
 - Posterior sinus compartment: posterior ethmoidectomy, sphenoidotomy  
 - Draf frontal sinusotomies (type IIa, IIb, IIc, III)  
 17:00 - Closing remarks

**DAY 3**

07:15 - Surgical cases presentation  
 08:15 - Management of sinonasal complications  
 08:30 - Live surgery & debate  
 12:00 - Special techniques: DCR and endoscopic maxillectomies  
 12:30 - LUNCH  
 13:00 - Video-guided step-by-step dissection  
 - Partial medial maxillectomies, pterygopalatine & infratemporal fossa endoscopic approach  
 - Dacryocystorhinostomy  
 - Optic nerve and orbital decompression  
 17:00 - Final exam and take home messages

The basic three-days lasting workshop is grounded on sessions of live surgery, lectures and practical cadaveric dissection. After the presentation of the daily clinical cases, participants will attend live surgery projections and will debate the surgical procedures directly with the surgeons. Lectures will relate to sinonasal surgical anatomy (macroscopic, endoscopic and radiologic), and specific surgical techniques. Afternoon sessions of step-by-step tutor-guided anatomical dissection will complete the programme. This course is addressed to ENT specialists or residents who desire to deepen their knowledge on treatment of sinonasal inflammatory pathology, benign tumors and management of possible complications. Participants that attend the three-day course and pass a final examination, will receive the University Certificate *in Endoscopic Nose & Paranasal Sinus Surgery*, of the University of Insubria in Varese.
